

Who Attends

Course content is based on **best practices of project management** from multiple methodologies (e.g. PMI, ISO 9000, Six Sigma, TQM, Global Organizational Design) and thus crosses over multiple industries. The primary framework however is based on the PMI knowledge areas and process groups.

This course was first taught by Jason Tratch in 2003 and since that time, students from many industry sectors have attended:

- Agriculture
- Architecture
- Industrial Chemicals
- Colleges and PolyTech
- Computers and IT
- Construction
- Consulting
- Contractors
- Cooperative
- Engineering
- Environment
- Financial Banks
- Forestry
- Government
- Health Regions
- Highways
- Hospitals
- Insurance
- Legal Offices
- Lotteries
- Manufacturing
- Mining
- Non Profit
- Pharmaceutical
- Real Estate
- Research & Development
- Retail
- Small independent businesses
- Software
- Telecommunications
- Transportation
- University

Attendees range from front-line employee, who perform project tasks, all the way to CEOs / Owners, who generally look to receive framework / tools / templates for a company-wide system roll out or cultural shift.
